

Congratulations CAT Truck Engine!

For an unprecedented sixth time, a heavy-duty truck engine from Caterpillar Inc. has received a prestigious J.D. Power and Associates Award for customer satisfaction in the 2006 Heavy Duty Truck Engine and Transmission Customer Satisfaction Study. Caterpillar's C-12 engine received the award in the "Vocational" segment, which includes trucks used in demanding applications such as construction, refuse hauling and utility services. This award has never been presented to another engine manufacturer.
