

St. Louis University Project
Research Building
1500kW Generator Delivery

Mike,

This is a note to express my thanks to you for your professional involvement and expertise on this project which consummated with the training class held at the jobsite yesterday. You did a fine job with the training class which was the icing on the cake for this successful project.

It has been my pleasure to work with you on this project and look forward to future projects when they arise.

Again, my sincerest thanks to you and the Fabick/Cat/Robinson team!

Sincerely,

Dave Milster
