**Fabick CAT enters dealership agreement with Telsmith Inc.**

Fabick CAT has entered into a dealership agreement with Telsmith Inc., an Astec Company, out of Mequon, Wisconsin. This dealership will provide Fabick CAT the ability to sell and service Telsmith Crushing equipment in all of the 99 counties we serve.

Since 1987, Telsmith has been owned by Astec Industries and today operates autonomously as a subsidiary of Astec Industries from a new state of the art 208,000 square foot plant just north of Milwaukee, Wisconsin. Telsmith's flagship products include: Silver Bullet Series Gyrasphere cone crushers; Iron Giant Series Jaw Crushers; a full range of primary and secondary Impactors; Vibro-King inclined screens; heavy duty Vibrating Grizzly Feeders; Specmaker inclined screens, and Super-Scrubber washing drums.

We are excited about our decision to enter the crushing and screening business to further our offering to our aggregate customers. We now have the ability to sell the mobile and stationary equipment in any quarry within our territory complementing our machine sales.
